A DAY-BY-DAY PLAN · 30 DAYS

Quit in *30 Days.*

A day-by-day plan for people who have tried before. One page a day. One small win at a time.

BY DIAMANT

For people who've tried before

WHY THIS BOOK

7 reasons this time can be different

1. **Built for people who have tried before**
   No lectures. A plan that expects hard days and shows you what to do on each one.

2. **One page a day, about 10 minutes**
   Every day has one paper task, one real-life task and one Save Box step. Nothing more.

3. **You watch your money grow**
   The Save Box turns every skipped pack into cash in a jar you can see, with treats on Day 3, 7, 14, 21 and a big reward on Day 30.

4. **A plan for every craving**
   A six-step craving routine and an SOS card you can screenshot, because a craving lasts only a few minutes.

5. **Real facts, not scare tactics**
   30 “Did you know?” facts from the World Health Organization, the CDC and the US Surgeon General.

6. **You see the proof in your body**
   A sport or activity you pick on day one, a warm-up on Day 13 and a Sport Test on Day 30, so you feel how your breathing changes.

7. **Slip-proof, not perfect**
   A ready “If I slip” plan so one bad moment does not become a bad week.

WELCOME

You can do this.

You have probably tried before, and you are still here. That says a lot about you.

This book gives you one page for each of your 30 smoke-free days. Every day gives you a paper task, a real-life task and a surprising fact. Do one page a day and let the days add up.

Remember, change comes from within...

> **Every day you do not smoke is a day you give back to yourself.**

How each day works

Paper
a short writing task

Do
one real-life action

Save Box
money into your jar

Did you know?
a fact to keep you going

Each day ends with a short thought to carry with you. Read it in the morning, and again when a craving hits.

YOUR BODY, AFTER THE LAST CIGARETTE

What starts to change

The facts in this book, on one page.

Within minutes
Your heart rate starts to drop.

Within hours
Carbon monoxide levels in your blood begin to fall.

First few days
Taste and smell often start to improve. Cravings peak around days 2–3, then ease.

2 to 12 weeks
Circulation tends to improve.

1 to 9 months
Coughing and shortness of breath tend to decrease.

1 year
Risk of coronary heart disease is about half that of a smoker.

5 to 15 years
Risk of stroke falls to that of a non-smoker.

10 years
Lung cancer death rate is about half that of a smoker.

15 years
Risk of coronary heart disease is the same as for someone who never smoked.

Source: World Health Organization. Timings are typical and vary from person to person.

YOUR TOOLKIT

Three tools you will use every day

1. Save Box. Each day, put the money a pack would have cost into a jar you can see.

2. Store Question. Heading out to buy cigarettes? Ask: *why go to the store to buy cigarettes, when I can buy something else instead?* Then buy a drink, a snack or gum.

3. Full Breath. Three slow breaths morning and evening. Notice how your breathing changes.

When a craving hits (it lasts only a few minutes)

1. Name it: “This is a craving. It will pass.”
2. Take three Full Breaths.
3. Drink water in slow sips.
4. Move: stand up, step outside, change rooms.
5. Keep your hands and mouth busy: gum, a snack, a pen.
6. Read your reasons card and picture your sport.

General information, not medical advice. If you have a health condition, are pregnant, take medication or want nicotine replacement or prescription help, talk to a doctor or pharmacist first.

KEEP IT CLOSE

Your Craving SOS card

Take a screenshot of this page and keep it on your phone. When a craving hits, read it slowly, one line at a time.

CRAVING? It passes in minutes.

1. Name it: “This will pass.”
2. 3 Full Breaths.
3. Slow sips of water.
4. Move: step outside or change rooms.
5. Gum, a snack or a pen in your hands.
6. Read my reasons. Picture my sport.

Then remember why you started, and who you can message right now.

The Store Question

Why go to the store to buy cigarettes, when I can buy something else instead?

BEFORE DAY 1

Get ready

1. **Write your top 3 reasons** on a card and on your phone. Be specific, like “I want to play football without losing my breath.”
2. **Name your sport or activity.** Put it at the top of the card. You will test it on Day 30.
3. **Pick a quit date** within the next 7 to 14 days, and tell one person.
4. **Build your Save Box.** Use a clear jar. Daily save = price of a pack × packs per day. Write it on the jar and choose what the money is for.
5. **Note your top 3 triggers** (coffee, stress, drinks, driving) and decide what you will do instead.
6. **On the night before:** throw away all cigarettes, lighters and ashtrays, and stock gum, water and snacks.

> **A quit date you have told someone about is a promise, not a wish.**

BEFORE DAY 1

Choose your method

The best method is the one you will follow. Pairing a method with support usually works better than going alone.

Method	Good if
Cold turkey	You want a clean break and have a plan for cravings
Cutting down, then stopping	Stopping suddenly feels overwhelming (set an end date)
Nicotine replacement (patch, gum, lozenge)	Cravings are strong. Follow the package, ask a pharmacist
Prescription help or a quitline	You have tried before and want extra support

Talk to a doctor or pharmacist first if you are pregnant, have a heart or lung condition, take regular medication, are under 18, or have a history of depression or anxiety.

MAKE IT PERSONAL

Your reasons are your engine

General reasons fade. Specific ones keep you going on the hard days.

Too general

"Smoking is bad for me."

Specific, and it works

"I want to play football without losing my breath."
"I want my clothes to smell like me again."
"I want to save for something I actually want."

Your Save Box, in one line

price of a pack × packs per day = your daily save

Example only: if a pack costs 5 and you smoke 1 pack a day, that is 5 a day, 35 after one week and 150 after 30 days. Your own numbers may be bigger.

> **Watching the jar fill is proof you can see.**

DAY 1 OF 30

Quit Day

01

Take it one hour at a time.

PAPER

Write a letter to future you, 5 lines about why you are doing this. Seal it and open it on Day 30.

DO

Take a 10-minute walk after your first meal. Do three Full Breaths morning, midday and evening.

SAVE BOX

Put in your first daily save.

DID YOU KNOW?

Your heart rate starts to drop within minutes of your last cigarette, and carbon monoxide levels begin to fall within hours.

"The hardest step is the first one. You just took it."

TODAY'S THOUGHT

DAY 2 OF 30

Stay Busy

02

Empty time is when cravings are loudest.

PAPER

Write your daily line: the date, the money you added and one word about your breathing.

DO

Go for a long walk, or tidy one room.

SAVE BOX

Add today's money and look at the jar.

DID YOU KNOW?

Cravings are usually strongest around days 2 to 3, and each one passes in a few minutes.

"Every craving you ride out is a craving you won."

TODAY'S THOUGHT

DAY 3 OF 30

Hold the Line

03

The hardest stretch. It eases from here.

PAPER

Write what your biggest craving taught you about your triggers.

DO

Dance to three songs you love, or cook a meal you enjoy.

SAVE BOX

Add today's money, then take your first small treat.

DID YOU KNOW?

Around now, many people notice their breathing feels easier.

“Get through today, and the road starts to get easier.”

TODAY'S THOUGHT

DAY 4 OF 30

Know Your Triggers

04

Every trigger you plan for loses some power.

PAPER

List your top 3 triggers and what you will do instead of smoking.

DO

Change your coffee routine today: a different cup or place, and brush your teeth right after.

SAVE BOX

Add today's money.

DID YOU KNOW?

Taste and smell often start to improve within the first few days.

"You are not giving something up. You are getting something back."

TODAY'S THOUGHT

DAY 5 OF 30

Move Your Body

05

Movement burns off restless energy.

PAPER

Write your daily line.

DO

Go for a gentle jog or a 20-minute walk. Notice how your breathing feels.

SAVE BOX

Add today's money.

DID YOU KNOW?

About two in three adults who smoke say they want to quit, and around half try every year. You are far from alone.

"Your lungs are on your side. Give them room to breathe."

TODAY'S THOUGHT

DAY 6 OF 30

Reach Out

06

You do not have to do this alone.

PAPER

Write 3 things that already feel better than before.

DO

Call or message a friend and tell them how it is going.

SAVE BOX

Add today's money.

DID YOU KNOW?

Counselling and medication can more than double a person's chance of quitting, according to the World Health Organization. Asking for help is a smart move.

“Strong people ask for help. That is how they stay strong.”

TODAY'S THOUGHT

DAY 7 OF 30

One Week Smoke-Free

07

A real milestone. Celebrate it.

MILESTONE · TREAT FROM THE SAVE BOX

PAPER
Count the Save Box and write the number down.

DO
Take your Day 7 reward and a photo of the jar.

SAVE BOX
Add today's money before you count.

DID YOU KNOW?
Withdrawal symptoms usually fade over the next two to four weeks.

"One week ago this felt impossible. Look at you now."

TODAY'S THOUGHT

DAY 8 OF 30

Take the Stairs

08

Small effort, real payoff.

PAPER

Write your daily line.

DO

Take the stairs instead of the lift all day.

SAVE BOX

Add today's money.

DID YOU KNOW?

In 2022, about half of US adults who smoked tried to quit, but fewer than 1 in 10 succeeded that year. Every smoke-free day you stack puts you ahead.

"Small steps, taken every day, become a new life."

TODAY'S THOUGHT

DAY 9 OF 30

Make Something

09

Busy hands, calm mind.

PAPER

Draw a jar and colour in a little more for each day so far.

DO

Draw, play music or start a small project.

SAVE BOX

Add today's money.

DID YOU KNOW?

Cigarette smoke contains more than 7,000 chemicals, and at least 69 of them can cause cancer. Every day you skip it, you skip all of them.

“Busy hands leave no room for old habits.”

TODAY'S THOUGHT

DAY 10 OF 30

Taste Your Food

10

Enjoy what you can taste again.

PAPER

Write your daily line and one food you are enjoying more.

DO

Cook a meal you love and eat it slowly.

SAVE BOX

Add today's money.

DID YOU KNOW?

Smokers lose at least 10 years of life expectancy on average, but quitting before age 40 cuts that extra risk of dying by about 90 percent. It is never too late to start gaining years back.

“Food tastes better when you are winning.”

TODAY'S THOUGHT

DAY 11 OF 30

Fresh Start

Get rid of old smoke.

11

PAPER

Write your daily line.

DO

Wash the clothes, bag or car cover that still smell of smoke, and open the windows.

SAVE BOX

Add today's money.

DID YOU KNOW?

Smoking harms nearly every organ in the body, so quitting gives nearly every organ a chance to recover.

“Fresh air. Fresh clothes. Fresh start.”

TODAY'S THOUGHT

DAY 12 OF 30

Practise “No Thanks”

12

A ready answer makes it easy.

PAPER

Write 2 short replies for when someone offers you a cigarette.

DO

Say “No thanks, I quit” out loud three times.

SAVE BOX

Add today's money.

DID YOU KNOW?

There is no safe level of exposure to second-hand smoke. By quitting, you protect the people around you too.

““No thanks” is a complete sentence.”

TODAY'S THOUGHT

DAY 13 OF 30

Sport Warm-Up

13

Meet your sport again, gently.

PAPER

Write your daily line.

DO

Play or practise your sport for 15 easy minutes. Notice your breathing.

SAVE BOX

Add today's money.

DID YOU KNOW?

Between one and nine months after quitting, coughing and shortness of breath tend to decrease. Today's easy session is the start of that.

“Your body remembers how to move. Let it.”

TODAY'S THOUGHT

DAY 14 OF 30

Two Weeks Smoke-Free

14

Two weeks of proof.

MILESTONE · TREAT FOR YOUR SPORT OR HOBBY

PAPER

Write three answers: what was the hardest moment, what worked best, and what will you change?

DO

Count the Save Box and take your Day 14 reward for your sport or hobby.

SAVE BOX

Add today's money before you count.

DID YOU KNOW?

Circulation tends to improve somewhere between two and twelve weeks after quitting.

“Two weeks is not luck. It is proof.”

TODAY'S THOUGHT

DAY 15 OF 30

Halfway There

15

Fifteen days done.

PAPER

Reread your reasons page and add one new reason.

DO

Take a 20-minute walk, ideally with someone.

SAVE BOX

Add today's money.

DID YOU KNOW?

Quitting helps at any age. People who quit between 45 and 54 cut their chance of dying too early by about two-thirds, and those who quit before 40 by about 90 percent.

"Halfway is where many people stop believing. Not you."

TODAY'S THOUGHT

DAY 16 OF 30

Beat Boredom

16

Boredom is a sneaky trigger.

PAPER

List 10 things you can do in under 10 minutes.

DO

Pick one from your list and do it right now.

SAVE BOX

Add today's money.

DID YOU KNOW?

The World Health Organization calls quitting one of the best things a person can do for their health. Tobacco kills more than 7 million people worldwide every year.

"A bored minute passes, just like a craving does."

TODAY'S THOUGHT

DAY 17 OF 30

Plan for Stress

17

The break helps, not the cigarette.

PAPER

Write 3 ways to take a smoke-free break when you are stressed.

DO

Take a 5-minute break outside with three Full Breaths.

SAVE BOX

Add today's money.

DID YOU KNOW?

Nicotine makes your body release adrenaline, which is why a cigarette can feel like a quick lift. Now your body is learning to stay alert without it.

“Stress is real. So is your strength.”

TODAY'S THOUGHT

DAY 18 OF 30

Help Someone

18

Helping others strengthens your own decision.

PAPER

Write down one thing you would tell a friend who wants to quit.

DO

Share a tip with someone, or encourage a person who wants to quit.

SAVE BOX

Add today's money.

DID YOU KNOW?

Since 2002, there have been more former smokers than current smokers in the United States. People like you are the reason.

“When you lift someone else, you rise too.”

TODAY'S THOUGHT

DAY 19 OF 30

Plan a Risky Night

19

A night out is easier with a plan.

PAPER

Write your plan: what you will drink, what you will do with your hands, and when you will leave.

DO

Tell a friend about your plan before you go.

SAVE BOX

Add today's money.

DID YOU KNOW?

About 3 in 5 US adults who ever smoked have quit. Quitting is far more common than most people think.

“Plan the night, so the night does not plan you.”

TODAY'S THOUGHT

DAY 20 OF 30

Get Your Heart Going

20

Make your body work a little harder.

PAPER

Write your daily line.

DO

Go for a 25-minute jog, fast walk or sport session.

SAVE BOX

Add today's money.

DID YOU KNOW?

Quitting lowers the risk of chest infections like bronchitis and pneumonia, and slows the loss of lung function in people with COPD.

“Every heartbeat today is working for you.”

TODAY'S THOUGHT

DAY 21 OF 30

Three Weeks Smoke-Free

21

Twenty-one days. Look how far you have come.

MILESTONE · THREE WEEKS

PAPER

Count the Save Box and write down what you could buy with it.

DO

Treat yourself to something small from the box.

SAVE BOX

Add today's money before you count.

DID YOU KNOW?

Cravings and irritability usually keep fading over two to four weeks.

“Three weeks. This is who you are now.”

TODAY'S THOUGHT

DAY 22 OF 30

The Store Question

22

Practise the trick that stops the shop trip.

PAPER

Write the Store Question in your own words: why go to the store for cigarettes when you can buy something else?

DO

Walk into a shop, ask the question and buy a drink, snack or gum instead.

SAVE BOX

Add today's money.

DID YOU KNOW?

The World Health Organization estimates that 4.5 trillion cigarette butts are not disposed of properly each year, adding up to hundreds of millions of kilograms of toxic waste.

“Ask the question. Choose the better answer.”

TODAY'S THOUGHT

DAY 23 OF 30

Try Something New

23

Fill the space cigarettes left.

PAPER

Write down one new activity you would like to try this month.

DO

Take the first small step: a class, a video, a walk somewhere new.

SAVE BOX

Add today's money.

DID YOU KNOW?

Quitting can add as much as a decade to your life expectancy, according to the US Surgeon General's report on smoking cessation.

“Make room for something new. You have earned it.”

TODAY'S THOUGHT

DAY 24 OF 30

Slip-Proof Your Plan

Prepare for a bad day, so it does not become a bad week.

PAPER

Write your “If I slip” plan: put it out, three Full Breaths, tell someone, back on the plan.

DO

Tidy your space and check that nothing smoke-related is left.

SAVE BOX

Add today's money.

DID YOU KNOW?

Fewer than 4 in 10 adults who try to quit use counselling or medication. If you slip, adding support is one of the best ways to improve your next try.

“A slip is a moment, not a verdict.”

TODAY'S THOUGHT

DAY 25 OF 30

Push Your Sport

25

See what your body can do now.

PAPER

Write your daily line and how your breathing felt.

DO

Play your sport or activity for 30 minutes at a comfortable pace.

SAVE BOX

Add today's money.

DID YOU KNOW?

Lung function can improve by up to about 10 percent in the months after quitting, as coughing and wheezing ease.

“Breathe in. Notice the difference. That is you.”

TODAY'S THOUGHT

DAY 26 OF 30

What Is Better Now

26

Write down the proof.

PAPER

List 3 things that are easier or nicer than before you quit.

DO

Do something kind for a friend or family member.

SAVE BOX

Add today's money.

DID YOU KNOW?

Heart rate and blood pressure start returning toward normal soon after your last cigarette, so some of the proof on your list is already happening inside you.

“Write down the proof. You will want to remember this.”

TODAY'S THOUGHT

DAY 27 OF 30

Money Check

27

Your jar is real proof.

PAPER

Work it out: pack price × packs per day × days smoke-free. Compare it with your jar.

DO

Decide how you will spend the big reward on Day 30.

SAVE BOX

Add today's money.

DID YOU KNOW?

The World Health Organization says tobacco pulls household money away from basics like food and shelter. Your jar is money going back where it belongs.

"Every coin in the jar is a choice you made for yourself."

TODAY'S THOUGHT

DAY 28 OF 30

Four Weeks Smoke-Free

28

Four weeks. That is a real change.

MILESTONE · FOUR WEEKS

PAPER

Write 3 lines about what is different now compared with Day 1.

DO

Take a small treat from the Save Box and tell your support person how far you have come.

SAVE BOX

Add today's money.

DID YOU KNOW?

A year after quitting, the risk of coronary heart disease is about half that of a smoker, according to the World Health Organization.

"Four weeks of choosing yourself."

TODAY'S THOUGHT

DAY 29 OF 30

Plan Your Celebration

29

Tomorrow is a big day. Get ready for it.

PAPER

Write how you will celebrate Day 30 and what you will do with the big reward.

DO

Invite a friend to join you for tomorrow's Sport Test.

SAVE BOX

Add today's money.

DID YOU KNOW?

Ten years after quitting, the lung cancer death rate is about half that of a smoker, according to the World Health Organization.

"Tomorrow you celebrate. Tonight, be proud."

TODAY'S THOUGHT

DAY 30 OF 30

You Did It

30

Thirty days smoke-free.

MILESTONE · SPORT TEST AND THE BIG REWARD

PAPER

Open your letter from Day 1 and write a short reply. Then write how your Sport Test felt.

DO

Run your Sport Test: play your sport or activity for 20 to 30 minutes at an easy pace and notice your breathing.

SAVE BOX

Add today's money, count the jar and take your big reward.

DID YOU KNOW?

Fifteen years after quitting, the risk of coronary heart disease is the same as for someone who never smoked, and the risk of stroke is down to a non-smoker's within 5 to 15 years. Keep going, one day at a time.

"You did not just quit. You started."

TODAY'S THOUGHT

THE ROAD YOU WALKED

Your 30-day milestones

Day 1 · Quit Day
Your body starts to recover within minutes.

Day 3 · The hardest stretch
It eases from here.

Day 7 · One week
A treat from the Save Box.

Day 14 · Two weeks
A treat for your sport or hobby.

Day 21 · Three weeks
Look how far you have come.

Day 28 · Four weeks
That is a real change.

Day 30 · You did it
The Sport Test and your big reward.

IF IT HAPPENS

If you slip

One cigarette is a moment, not a verdict. Prepare for a bad day, so it does not become a bad week.

1. Put it out.
2. Take three Full Breaths.
3. Tell someone.
4. Go back on the plan, today, at the page you were on.

Fewer than 4 in 10 adults who try to quit use counselling or medication. If you slip, adding support is one of the best ways to improve your next try.

> **Quitting is not about never falling. It is about always getting back up.**

30

DAY 30 AND BEYOND

Thirty days smoke-free.

Thirty days ago this felt impossible. Now it is something you have done, one page at a time.

> **You did not just quit. You started.**

Keep going, one day at a time.

HELP AND SOURCES

Where to get support

- **A doctor or pharmacist** can advise on nicotine replacement and prescription help.
- **A free quitline.** Many countries have one. Search “quitline” with your country’s name.
- **A support person.** A friend or family member you message on hard days.

Facts in this book come from

World Health Organization (WHO): tobacco fact sheets and health benefits of quitting.
US Centers for Disease Control and Prevention (CDC): data on quitting.
US Surgeon General’s report on smoking cessation.

General information, not medical advice. If you have a health condition, are pregnant, take medication or want nicotine replacement or prescription help, talk to a doctor or pharmacist first.

Quit in 30 Days: A Day-by-Day Plan for People Who’ve Tried Before · by Diamant
